Keyboard firmware version notes:

MSXKEY_0.1 :

Added Fn + F3 Menu: The scan codes for the INS, KANA, and CTRL keys can be redefined and saved.

MSXKEY250302T0.1 :

The F12 key is invalid when pressed alone. The F12 function is now activated by pressing Fn + F12.

MSXKEY250303T0.2 :

Ignore the **F12 key** (replace it with the **Fn + F keys**). Purpose: Resolve conflicts caused by the combination of the **Down**, **Left**, **Space**, and **F12** keys.
